STUDENT'S SEMESTER PLANNER:

Because some MJI students find it useful to plot their entire future course schedule at one time, MJI plans course offerings six semesters in advance. Although this is certainly a good planning approach, MJI cannot guarantee that any particular course will be offered during any given semester. The further out in time the schedule of course offerings is, the more subject it is to some change. With this in mind, we offer the following worksheet that students may use to plan which courses they will take and when.
